

Venus

Venus is a solution comprised of anodized aluminum extrusions that provide flexibility with a distinguished look. It is available with or without a decorative accent bar and can be customized for your unique environment.

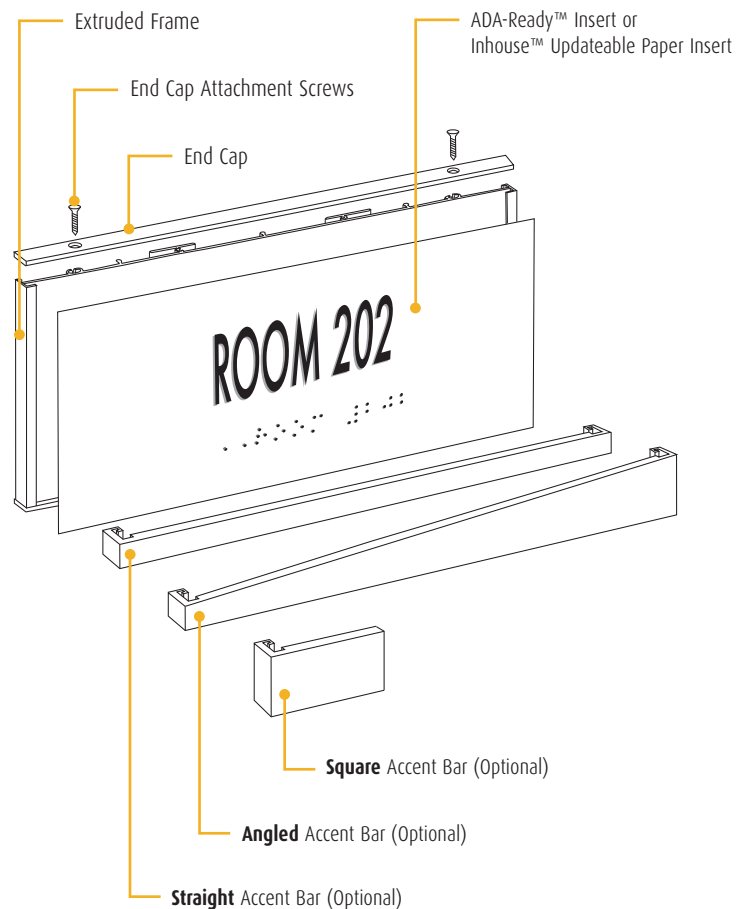

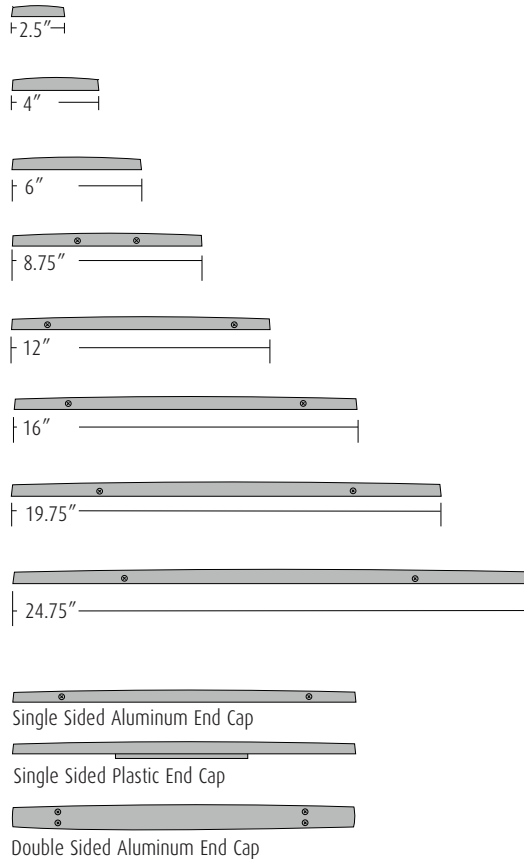

Venus features more than 40 pre-defined sizes for standard interior signage, including name plates, wall mounts, directionals, projecting and suspended signs. Venus includes ADA-Ready™ panels, graphic panels and all sign components can be finished with any of ASI's 140 standard paint colors. Additionally, Venus is made from aluminum which can be easily recycled at the end of the life of the sign.

Versatile Designs for Any Environment

Standard Venus

Venus is featured here as a basic extruded frame solution with ADA-Ready™ and paper inserts to create an economical signage solution.

Venus with Design Accents

Accentuate Venus by adding anodized accent bars. Accents are available in five standard colors. They can be straight or angled and placed anywhere on the face of the sign.

Customized Venus

Customize Venus with a variety of materials to complement your interior finishes to create a unique design.
